

Dr. Biossa's Pet Spray

Dr Biossa's Pet Spray is a completely safe and natural way to effectively deal with the inconveniences of pet ownership. Just spray it on!

Mouth & Ears

- Controls bad breath
- Prevents the build up of plaque
- Eliminates the cause of mites
- Helps to fight off infections

Coat & Skin

- Quickly neutralizes all smells (even from a skunk)
- Promotes a vibrant and shiny coat
- Prevents fleas and other pests
- Suppresses germs and parasites
- Don't forget to spray it on all bedding too!

Tick removal

If you find a tick on your pet (or yourself) - do not remove the tick by force - instead just spray with Dr Biossa's Pet Spray. Repeat until the tick loosens its grip and falls off. Continue to spray the affected area frequently to discourage any infection.

It can even be added regularly to your pet's food or water for a probiotic boost!

Dr. Biossa's Pet Spray made from a propriety formula of probiotic cultures (micro-organisms) and organic ingredients; each one being in compliance with the US GRAS (generally regarded as safe) List.

No GMOs or artificial ingredients are used and all Biossa products are completely safe for humans, animals and our environment.

Healthy Pets live longer.
